COMPANY OVERVIEW

Who we are

Forge Chemicals (PTY) LTD

Forge Chemicals is a leading South African trading company dedicated to connecting businesses globally through the import and export of commodities. Established in 2012, we have evolved into a trusted partner for clients seeking excellence in trading, export, and supply chain solutions.

Our Mission:

At Atlas Group, our mission is to facilitate seamless trade and promote sustainable economic growth. We strive to provide exceptional products, foster long-term partnerships, and contribute to the success of our clients and stakeholders.

Key Focus Areas:

1. Diverse Product Portfolio:

- We specialize in sourcing and exporting a diverse range of products, including agricultural commodities, foodstuff, and raw materials. Our extensive portfolio caters to various industries, ensuring we meet the unique needs of our clients.

2. Quality Assurance:

- Quality is at the core of our operations. From stringent sourcing standards to rigorous quality control measures, we ensure that our exported products meet international benchmarks, providing confidence and satisfaction to our clients.

3. Global Reach:

- Operating on a global scale, Forge Chemicals has established a robust network that enables us to connect businesses in South Africa with markets worldwide. Our reach spans across continents, facilitating international trade and partnerships.

4. Bulk Export Solutions:

- With expertise in bulk sourcing and export logistics, Forge Chemicals caters to the demands of distributors, retailers, and manufacturers. Our efficient supply chain solutions ensure the timely delivery of high-quality products in substantial quantities.

5. Transparency and Integrity:

- We prioritize transparency in all our dealings. From clear communication with clients to an open-book approach in our operations, we build relationships based on trust, integrity, and ethical business practices.

Forge Chemicals (PTY) LTD

At Forge Chemicals , our management philosophy is grounded in the belief that successful leadership is a blend of vision, empowerment, and ethical decision-making. We embrace a people-centric approach, recognizing that the strength of our organization lies in the collective talent, dedication, and passion of our team.

Mission

- Excellence in Trade: Our mission at Forge Chemicals is to consistently deliver excellence in international trade. We are dedicated to providing our clients with top-notch commodities, innovative trading solutions, and unparalleled services, setting a benchmark for quality and reliability in the industry.
- Global Partnerships: We are on a mission to foster global partnerships and connections. By actively engaging in cross-border trade, we seek to bridge gaps, build relationships, and contribute to the growth and prosperity of businesses on both regional and international scales.

Values

- Integrity: At the core of our values is unwavering integrity. We conduct our business with transparency, honesty, and ethical conduct, fostering trust with our clients, partners, and stakeholders.
- Innovation: We value innovation as a driving force for progress. Our commitment to continuous improvement and embracing new ideas ensures that we stay at the forefront of the trading industry, offering cutting-edge solutions to our clients.

Vission

- Global Trade Leader: Our vision at Forge Chemicals is to be a global leader in the trading industry. We envision ourselves at the forefront of international trade, setting standards for excellence, innovation, and ethical business practices.
- Sustainable Growth: We aspire to achieve sustainable and responsible growth. Our vision includes not only expanding our market reach but doing so in a way that contributes positively to the environment, society, and the communities we serve.

OUR HISTORY

Forging a Legacy in International Trade

In the bustling heart of Cape Town, South Africa, the seeds of Forge Chemicals (PTY) LTD were planted in 2014. What started as a vision to redefine the trading landscape soon blossomed into a dynamic and innovative trading company that has left an indelible mark on the industry.

Foundation Years: 2014-2016

Founded with a commitment to excellence and a passion for international trade, our journey began humbly in 2014. In those early years, we navigated the complexities of the market, honing our expertise and building the foundations of a company steeped in values. Our commitment to integrity, innovation, and customer-centricity became the pillars upon which Forge Chemicals would rise.

Expanding Horizons: 2017-2019

The years that followed were marked by expansion and diversification. Forge Chemicals quickly gained recognition for its dedication to sourcing and trading high-quality chemicals, including Mining Chemicals, Industrial Chemicals, Water Chemicals, Agriculture & Agrochemicals and other industries. Our portfolio reflected our commitment to meeting the diverse needs of our clients while maintaining an unwavering focus on quality.

Global Reach: 2020-Present

The turning point in our history came with the realization that our ambitions transcended borders. The year 2020 marked our transition from a regional player to a global contender. We actively expanded our export capabilities, not only within the African continent but to customers worldwide. This global reach positioned us as a key player in the international trade arena, connecting businesses across continents.

OUR LINES OF BUSINESS

Import & Export

South Africa's well-developed infrastructure, abundant mineral resources, and efficient access to international markets make it a powerful hub for chemical trade and logistics. With advanced port facilities, multiple transport modes—including road, sea, and air freight—and strategic positioning across key global routes, the country plays a vital role in Africa's export economy.

At Forge Chemicals Limited, we harness these advantages to serve a growing number of global markets. Backed by over a decade of experience in international trade, we export high-quality chemical products to regions including China, India, Brazil, the United States, Iraq, Pakistan, Afghanistan, and the UAE.

We collaborate with leading domestic and international manufacturers and engage in joint ventures across sectors such as agriculture, mining, industrial manufacturing, and water treatment, ensuring access to a diverse and reliable portfolio of chemical products.

Our Core Export Categories Include:

- Mining Chemicals
- Water Treatment Chemicals
- Industrial and Manufacturing Chemicals
- Agrochemicals and Fertilizers
- Cosmetic and Personal Care Ingredients
- Polymers and Additives

Our Vision in Global Trade

Forge Chemicals is committed to advancing global trade through:

- Expanding our international footprint in emerging and established markets
- Building long-term partnerships based on trust, performance, and shared growth
- Working exclusively with verified, high-quality producers
- Enhancing product diversity and maintaining consistent supply standards

Our team brings together executive experience, scientific insight, and deep commercial expertise to offer chemical solutions that meet international demand—reliably, ethically, and competitively.

Chemical Distribution

Chemical Production and Export of High Quality Products is Our Key Strategy

Equipped with a unique knowledge of Chemicals and well established supplier networks, we invest in manufacturers that are reputable and with large production capacity in order to export good products

We work on end-to-end chemical procurement

- Production & Investment in top notch factories
- Supplier evaluation and selection on non-core chemicals
- Due diligence with quality assurance/control
- Coordination with transaction third parties:
 1. Logistics / shipping companies (e.g. Maersk)
 2. Technical QA/QC firms (e.g. SGS)
 3. Banks and relevant government authorities (e.g. Customs)

Forge Chemicals focuses on two main areas: mining chemicals/reagents and industrial/water chemicals

Forge Chemicals has experience in a wide range of mining chemicals, reagents, industrial and water chemicals

Some of our Most Exported Mining Chemicals

Chemical Name	Typical Usage
Xanthates	Flotation
Dithiophosphates	Flotation
Lead Nitrate	Activator
Sodium Cyanide	Gold extraction using heap leach, CIL processes
Activated Carbon	Leaching process
Isopropyl Ethyl Thionocarbamate	Collector
Pine Oil	Frother
Sodium metabisulphite (SMBS)	Gold mining flotation process
CC 903	Special sulfide flotation frother
Methyl Isobutyl Carbinol (MIBC)	Frother

Some of our Most Exported Mining Chemicals

Chemical Name	Typical Usage
Aluminium Sulphate	Inorganic flocculent for water treatment
Calcium Hypochlorite 65%	Water treatment
Sulfonic Acid LABSA	Manufacturing
Ferric Chloride	Inorganic flocculent for water treatment
Caustic soda	Various industrial uses
Polyaluminium Chloride	Polyaluminium Chloride
Acetic Acid Glacia	Chemical compounds
Sodium hypchlorite	Water treatment
SLES	Soap/detergent manufacturing
Oxalic Acid	Manufacturing
